HARVEST 2022: ONE FOR THE AGES

We're happy to share that the new year started on a great note for Sula. Our recently concluded harvest 2022 was possibly one of our best. We harvested a record 10,000 tons of superb quality wine grapes. This ensures that we can continue to bring you your favourite wines!

Our winemaker Karan Vasani says that this could perhaps be our best red vintage ever. Our viticulture and winemaking teams have worked tirelessly to keep improving year after year and we are excited for all that is in store for us and for you.

RED, WHITE, ROSÉ & GREEN!

Like we always say, at Sula Vineyards green is just as important as red, white and rosé. Sustainability is at the heart of all our operations; for example, solar energy powers almost 70% of our winemaking and hospitality operations.

Our dedication to crafting the best wines through sustainable winemaking and viticulture practices extends beyond environmental protection. At Sula, we have always tried to enrich the lives of all those who are associated with our company through sustainable practices.

We are happy to showcase our key sustainability initiatives and measures we have taken to drive them in our latest Sustainability Report. It summarises all our efforts to reduce our overall environmental impact and keep the planet green.

A RISING WINE INDUSTRY!

Over the past two years, wine consumption in India has seen a strong upward trend. With better-than-ever wine quality, easy availability, wine tasting in shows like Mirzapur, and the opening of wine bars around the country, India's wine consumption has truly transformed and continues to rise. The laws governing the sale of wines in the country have also been liberalised. Indian wines are getting recognized on eminent international platforms. Our Brut Tropicale recently won the Gold medal at the International Wine Challenge 2022 in Britain, making Sula Vineyards the first Indian winery to receive this honour. It all shows that the interest in wine is increasing, and we are extremely excited about it. Wine awareness is flourishing throughout the country, and we are confident that 2022 will see our big family of wine lovers grow even more!

MONSOONS AT SULA VINEYARDS!
